SAFETY NOTE: The immediate railfan area is not an open area, it is hard to see approaching trains, there is a slight curve on the E/W line. There is no advance warning of approaching trains, due to the lack of crossings close by... just be very careful....

Note: Data on this map has not been field checked since about 2002.

Access road, don't go here either

Might be OK if you ask the cement plant people

For a main junction between two lines, this diamond is not signaled as much as one would think!
